NEW MODELS

At the recent George Aldrich day at the KMAC flying field, Gary Whitbourn had brought along this home designed aerobatic model.

The part I found interesting was that he had built it to house a brand new as yet un-run Frog 500 Mk1 engine. Gary told me he is not an engine collector and the engines he possesses are all intended to be used and this model has been one of his projects that has been waiting to happen for some time.

Conditions on the day were not ideal for having a maiden flight so that will have to wait for another time.

2023 WESTERN AUSTRALIAN STATE CHAMPS VINTAGE STUNT

The event took place on the 17th June on a rare but glorious day after almost two weeks of incessant and heavy rainfall. There was a light wind which didn't cause any of the competitors' problems.

With a very good entry, for W A, of seven (7) competitors the scene was set for a great day's flying.

And so it proved with a good variety of models and engines.

Contest Director, Jim Trevaskis, got the judging started by 1PM and our two reliable Static Judges, Alex and Lex Cunningham set about scrutineering the entries.

I would like to thank the Flight judges, Jim Stivey and Peter Poole, Line process steward, Dickie Morrow, Scoresheet runner, Stephen Metcalfe and new member (from R/C) Mike Johnson who volunteered to take over the score inputting to the laptop in my place. The usual operator, Alasdair Taylor being overseas on holiday.

Because of a protest at the last Vintage event on Static points allocation we have just fallen in line with the rest of Australia in awarding Building and Finishing points to all entrants, whether they had built the model or not. It is claimed that, as there is no "Builder of the Model Rule in Australia", it doesn't matter who built or finished the model, the entrant gets the points.

Personally, I and some others, think that this is a very unfair and stupid rule as how can an entrant who buys a beautifully built model receive building and finishing points for someone else's workmanship. It's about time the MAAA looked at deleting those static points altogether if building and finishing doesn't matter any longer. Rant Over!!!!

The Flying

Craig Boughey was first into the air with his FOX 35 powered Smoothie putting in a creditable score of 437points.

Next to fly was the old master, Peter White, flying his ATWOOD 51 powered Jamieson Special which is extremely noisy but runs so consistently. As usual Peter flew in his laid back, smooth style to be awarded 493 points

Russell Christensen flew next with his OS35 powered Thunderstreak, an Australian design which netted him the five extra points for that feature as per recent rule changes. Unfortunately, Russ's engine played up

preventing him from completing some of the riskier manoeuvres to return a 1st round score of only 281. Sadly his second flight had a worse engine run preventing him from flying half of the manoeuvres.

Trevor Letchford, who is much more comfortable and proficient on a Teamrace handle took to the air with his FOX 35 powered All American. Trevor doesn't do much stunt flying at all, coming closer to aerobatics with his Combat flying. Unfortunately the combat style of tight manoeuvres does not suit Vintage Stunt and so it showed in the results, however we really appreciate his involvement and he can only get better

with practice.

Greg McLure was next with a newly built (finished last week) Blue Pants powered by a MK1 ETA 15 which he had just been given. He made a valiant effort with his first flight and was totally surprised when the ETA started on the 1st flick. He changed to a different bottle of fuel for the second flight but could not get the engine started and so retired. More playing with the engine needed plus some new fuel.

Greg Kowalski flew his cute flapless Biplane, the BOJO (1948 design) which is powered by a new ENYA 15. This little model is a real surprise as it stunts really well and Greg has finally mastered it.

Last to fly was Colin Crowley with his, Charlie Stone built, Veco Chief powered by a Veco 35. He performed a creditable first flight but, somehow hit the ground after completing his two inverted laps, damaging the nose rear fuselage and fin with a small hole in the outboard wing leading edge. I'm sure that he will soon have it back to its pristine condition with his standard of workmanship.

And so to the results:

- | | |
|---------------------------------------|-------|
| 1 st – Peter White | (493) |
| 2 nd – Craig Boughey | (437) |
| 3 rd – Greg Kowalski | (423) |
| 4 th – Colin Crowley | (361) |
| 5 th – Trevor Letchford | (326) |
| 6 th – Russell Christensen | (281) |
| 7 th - Greg McLure | (251) |

Report and pictures from Norm Kirton.

Colin Crowley with his Veco Chief before damage.

Forefront is Russell's Thunderstreak with Greg tuning his ETA and Dickie assisting Trevor prepare.

Peter White readies his Jamieson for flight.

AROUND THE CLUBS

George Aldrich Carnival (Noblers, Peacemakers, Flight Streaks etc). May 28th.

Reeve Marsh and Gary Whitbourn with Reeve's mini "Flightstreak" powered by a PAW .55cc engine.

Graham Keene and John Goodge roll up their lines at the end of the day.

CLAMF Club Competition 11th June.

Of the three competitions set down for the day only Vintage A Team Race was flown. Some members had other commitments for the day and the weather was less than inviting.

Gavan Opperman was an early arrival at the field and flew his stunt models whilst the winds were light and just before lunch time, Ken Maier and Tony Caselli arrived with a selection of Vintage Combat models to do some flight training.

Tim Cooper had brought his much modified Classic FAI team racer for some testing but after one flight the KMD engine lost compression and refused to re-start so it was retired for the day and will have an engine transplant. Ken and Harry kept their classic models in their cars.

Andrew Nugent was on hand to do some timekeeping duties for Vintage A team race and although the engines used were not top of the range, the racing times were close.

Vintage A Team Race Results

Team	Rd 1	Rd 2	Model/Engine
H. Bailey/K. Hunting	<u>3:56.0</u>	3:58.94	Olympian/CS Oliver
K. Hunting/H. Bailey	4:48.87	<u>3:57.42</u>	Voodoo Mk1/Russian Oliver
T. Cooper/K. Hunting	4:45.03	<u>4:08.45</u>	Footprint/PAW tbr

Tim Cooper, Harry Bailey, Ken Hunting.

CLAMF Club News.

At the recent MAAA conference in May, it was announced that although public liability insurance premiums had increased for the association the membership fees would remain the same as last year.

However on the down side of things, the previous insurance cover provided to clubs by the MAAA for clubs buildings and contents will no longer be provided. For those members amongst you that belong to clubs without facilities at your flying location this will not be a problem but for other clubs such as CLAMF any insurance cover will now probably have to be paid for by the club members.

We have been offered a quote from the same insurers that the MAAA use for our property at CLAMF of \$1,120.16

This is a sizable cost for a club without a large membership base and unfortunately the membership fees will have to increase for the first time for a while this year to accommodate the increased expenditure.

Harry Bailey (CLAMF Secretary)

This notice was printed in the recent National Control Line Racing Association newsletter in the USA (Torque Roll).

2024 F2 World Championships

Bill Lee sent this note about the upcoming 2024 F2 World Champs:

"Today, AMA HQs sent in a "pencil-in" bid for the 2024 F2 World Championships. The only thing now needed is an official vote of the AMA Executive Council, which will happen at the EC meeting in late July. In order to get EC support, the AMA CL NATs will be moved to the first week in August with the F2 World Champs following".

Attached is a snapshot of the scheduling of the IAC for the NATs and the F2 WCHs.

30	31	Thu - Aug 1	2	Sat - 3	Sun - 4	Mon - 5	6	7	Thu - 8	Fri - 9	Sat - 10	Sun - 11	Mon - 12	Tues - 13	Wed - 14	Thu - 15
				CL Short												
				CL Speed												
				Jamboree												
				Not used for Jamboree												
				CONFLICT: Short Jamboree	CL Carrier											
				CL Race												
				CL Racing												
				CL Control												
									Annual	Prop	Prop2	Prop3	Prop4	Control	Prop4Banquet	
				Given the schedule above for the IAC events, the entire CL NATs/F2 WCHs schedule could be shifted 4- a day or two. The only concern is the WCHs Banquet and availability of a location in Muncie on a Thursday or Friday or Saturday evening.												
				8/12/23 I just spoke with Dan Lucette of IAC and he said they do NOT use Site 5 for Jamboree. This means there is no conflict there.

Andrews Pans.

Hi All,

I've been asked over recent months about the availability of pans and what types I have.

I had a dig in my pan box and was quite surprised to see about 8 different types. It's grown over the years! The quality has improved also. I'm on my 3rd foundry now, it was a problem getting a company who wanted to take it on. Material is casting alloy CC601.

Price is still the same at \$25 for "as Cast" pans. I'm not preparing them in a finished state because of problems with my arms at the moment.

I'm not keeping a lot of stock, but will get some cast if asked. It usually takes about 3 weeks. I will always get a couple extra done.

Also, I've just finished a new master. It's copy of Steve Rothwell's engine plate. Simple little thing, but it will save cutting the plate out of tough aluminium

After last month's update and photos of the available pans, I wanted to clarify some of the prices .

29 speed pan..... \$30

2cc speed pan....\$25

T/R pans.....\$25

Rothwell style plate..... \$12

All the pans are unfinished . Although I usually clean off most of the flashing ,

Andrew Nugent.
